Panel Questions for 2018 Spring Networking Conference

1. What does college readiness mean to you?

2. What are the different aspects of college readiness? How are these aspects developed for different ages of children? What are the “soft skills” that are necessary for success?
   - academic
   - emotional
   - social
   - financial
   - communication

3. What can we do to help students to become college ready? How can we ensure that all students have access to these experiences?

4. How do educational structures (such as class rank, school reputation) affect students’ college and career pathways? How do we overcome structural impediments? How do we develop transition programs to make sure that students don’t get lost in the system?

5. What is the role of the parent in college readiness? What is the role of the community? How do we more actively involve parents and community in students’ college readiness?

6. How is career awareness related to college readiness?

7. What is the role of mathematics in helping students to become college ready?
