

**RICE**  
School Mathematics Project

**EPISCOPAL**  
HIGH SCHOOL

**Rice University School Mathematics Project's  
2019 Summer STEM Programs at Episcopal High School  
for Middle and High School Students**

Math programs for middle school and high school students who want to enrich their mathematics backgrounds, prepare for their next math courses, and explore mathematics topics that may not be emphasized during the school year:

Two-week programs:

(1) **Fun Investigations in Math**

For students entering 7<sup>th</sup>- or 8<sup>th</sup>-grade math in the fall of 2019 (who are not taking Algebra I or Geometry in the fall of 2019)

June 10-21 (9:00 am – noon)

Cost: \$550 per student

(2) **Exploring Important Connections in Algebra I and Geometry**

For students entering Algebra I or Geometry in the fall of 2019

June 10-21 (9:00 am – noon)

Cost: \$550 per student

(3) **Developing Concepts and Skills for Advanced Mathematics**

For students entering Algebra II or Precalculus in the fall of 2019

June 10-21 (9:00 am – noon)

Cost: \$550 per student

Three-week program:

(4) **Preparing for Success in Calculus**

For students who have completed Precalculus

June 10-28 (9:00 am – noon)

Cost: \$875 per student

One-week STEM programs for middle school students to investigate society's important problems that only STEM can solve:

(1) **The STEM behind Oil and Gas**

June 10-14 (9:00 am – noon)

Cost: \$300 per student

(2) **Water Quality and Why it Matters**

June 17-21 (9:00 am – noon)

Cost: \$300 per student

(3) **Flooding and Climate Change: Are they connected?**

June 24 -28 (9:00 am – noon)

Cost: \$300 per student

**Where:**

Episcopal High School  
4650 Bissonnet Street  
Bellaire, Texas 77401
