Rice University School Mathematics Project’s Summer Math Camps at Saint Thomas’ Episcopal School for 1st-grade through 5th-grade Students

The Rice University School Mathematics Project (RUSMP) is once again offering two-week summer math camps at Saint Thomas’ Episcopal School for students who will be entering 1st- through 5th-grade in the fall of 2020.

These enriching, activity-filled half-day camps will engage students in fun, hands-on mathematics investigations and games with connections to science, technology, engineering, and the visual arts. Students will enhance their love of learning and will leave energized and enthusiastic about mathematics and the other STEAM disciplines. These are not intended for remediation or as prep for the school year.

Saint Thomas’ Episcopal School is providing after care for RUSMP campers if needed. Please contact Emily Cox at cox.emily@stes.org if interested.

**When:**
June 8 – 19 (Mondays through Fridays)
9 am – 12 noon

**Cost:**
$550 per student for the two-week summer camp (10 half-day sessions)
