Rice University School Mathematics Project’s
2024 Summer Math Camps
at Annunciation Orthodox School’s Camp AOS
for Students entering 1st-grade through 8th-grade in the Fall, 2024

The Rice University School Mathematics Project (RUSMP) is offering one-week summer math camps at Annunciation Orthodox School’s Camp AOS for students who will be entering 1st- through 8th-grade in the Fall of 2024.

The one-week camps (9:00 a.m. - 3:30 p.m.) will blend content-focused learning and enriching activities to engage students in fun, hands-on mathematics investigations and games with connections to science, technology, engineering, and the arts. They will explore topics that may not be emphasized during the school year. Students will strengthen their problem-solving and reasoning skills and enrich their math backgrounds to prepare them for the upcoming school year.

We are pleased to offer lunch through SAGE Dining. The registration cost for the camp includes lunch.

Information about early arrival camp care as well as information about other camps is available through Annunciation Orthodox School. (Visit https://www.aoshouston.org/camp-aos for more information.)
