

RICE UNIVERSITY
School Mathematics Project

PROGRAM
ANNOUNCEMENT
Fall Semester, 2002

**Advanced Topics in Mathematics for Middle and Senior High
School Mathematics Teachers**

Mondays, September 23, 2002 through December 16, 2002
4:30 p.m.- 7:00 p.m. at Rice University

This new course is designed for middle school or high school mathematics teachers who are seeking a strong foundation in advanced mathematics topics through a conceptual approach. The primary focus of the course is the development of a catalogue of functions with an emphasis on multiple representations and applications. Technology and mathematical modeling will be used throughout the course.

Concepts include:

- Properties of functions
- Transformations of functions
- Inverses of functions
- Exponential functions
- Logarithmic functions
- Rational functions
- Trigonometric functions

Each teacher will receive course materials, Gifted and Talented credit, and professional development credit.

Enrollment is limited.
